## SMART POWER SL200SPD

### User Manual

Thank you for purchasing imuto product. For optimum performance and safety, please read this user manual carefully before operating the product. Please keep this user manual for future reference.

## ■ Product overview

## ■ Power Delivery 2.0 Technology

USB-C

PD 2.0

The combination of USB Type-C and USB PD2.0 is the best quick charge solution at present. It supports mobile phones, tablets and laptops within 100W, corresponding to 5V, 9V, 12V, 15V, 20V of different voltage devices. Besides, it supports bi-directional fast charging and PD digital communication protocol.

## ■ Digi-Power Technology

Digi-Power

Unique smart digital display technology, showing exact remaining power in digital format.

## ■ iM-Power Technology

1. Exclusive intelligent charging technology specially for iPhone provides charging speed up to 200% compared with original charger.
2. Automatically identifies charging devices, providing optimal current to charge faster and safer.

## ■ iM-Power II Technology

Exclusive intelligent charging technology automatically identifies charging devices, providing Multi-voltage output and optimal current to charge faster and safer, supports QC2.0 / 3.0 fast charging technology.

## ■ Charge Times

New MacBook  
1.5 timesNintendo Switch  
3.1 timesiPhone X  
4.9 timesiPhone 8  
7.3 timesiPad Mini 4  
2.6 timesGalaxy Note9  
3.5 times

## ■ Features

1. Ultra compact design: enjoys a optimum size among the same capacity of Power Delivery 2.0 power banks.
2. Low energy design: can charge four different devices simultaneously with Power Delivery 2.0 input and output (both max 18W).
3. Digi-Power technology: shows exactly remaining power in digital format.
4. iM-Power technology : detects your devices intelligently and delivers the faster charging.
5. High capacity and top quality: It is safer to use with 20000mah capacity which is guaranteed with build-in-A-Class lithium ion batteries.
6. Multiple smart protection system: keeps your devices safe from over-charging, over-voltage, over-current and short circuit.
7. Multiple security protection with smart chip: keeps your devices from over-current, over-discharging, over-charging, over-voltage and short circuit.

## ■ Specification

Model: SL200SPD

Battery Type: Li-Polymer Battery

Capacity: 20000mAh/74Wh

Input: USB-C PD2.0 (5V/3A, 9V/2A, 12V/1.5A) 18W(Max)

Output: 18W(Max)

USB-C PD2.0 (5V/3A, 9V/2A, 12V/1.5A, 15V/1A) 18W(Max)

USB1 QC3.0 (5V/3A, 9V2.0A, 12V/1.5A)

USB2 5V/3A, USB3 5V/3A

Color: Black &amp; Gold

Size: 162.9×75.4×25.5mm

Weight: 428±10g

Operating temperature: 0°C ~ 40°C

## ■ How to use SL200SPD

1. Turn On: Short press power button, the LED digital screen will show remaining power once it has been started successfully.

- Turn Off: If SL200SPD is not connected any devices in 5 seconds, it's LED digital screen will off and the power output will shut down automatically in 45 seconds.
- For switching USB-C PD output / input direction, please press the power button for 6 seconds and unplug the USB-C cable to restart.

**Notes:**

- Please use original or imuto's charging cable for recharge.
- It is normal that SL200SPD gets a little warm when multi-device are charging at the same time.
- If your device's battery runs out, the charging speed may get slower because of the battery self-protection.

### ■ How to charge SL200SPD

- Charge by computer or certified adapter.
- Inappropriate operation may activate the power bank short-circuit protection, recharge it to unlock protection.
- While the LED digital screen shows "100" and stop flashing means the power bank has been fully charged.

**Note:**

- For fast charging SL200SPD, please use a certified power delivery 2.0 charger.
- Incorrect operation will cause short circuit protection, please charge the SL200SPD to unlock the short circuit protection.
- The LED digital screen only show recharging status while recharging the power bank and charging devices happen at the same time.

### ■ How to charge your device

- Connect your device to SL200SPD's Output port using original USB cable or a certified cable.
- Turn on the power bank.
- Disconnect your device once fully charged.

**Note:**

- It is hard to check the remaining power under the glare because of the hidden design for LED digital screen.
- Your device could get PD fast charging automatically from the type-c port if it supports Power Delivery 2.0 technology.
- Please use USB data cable if you want to quickly charge your devices of QC2.0/3.0 quick charging function.

### ■ What's in the Box

- |                           |                               |
|---------------------------|-------------------------------|
| 1. SL200SPD Power Bank *1 | 4. Feedback Card *1           |
| 2. USB to USB-C Cable *1  | 5. Travel Waterproof Pouch *1 |
| 3. User Manual *1         |                               |

### ■ Warning

Inappropriate use could damage product and cause potential safety concerns to both human and property.

### ■ Warranty

18 months warranty starts on purchase date, excluding accessories. Warranty expired automatically with damage(s) caused by inappropriate use and/or force majeure.

24 hours email customer support  
support@imuto.com  
www.imuto.com

### ■ Caution

Use original or certified cables.

Do not disassemble or repair it by yourself.

Avoid lightning strikes, knocking and dropping.

Avoid extreme temperatures.

Do not expose to water or chemicals.

Please charge fully every 4 months to extend the battery life.
